Important Letter.

Messrs Comyn & Sherry

Dear Sirs—I herewith enclose you a few lines relative to your Indian Elixir which for the benefit of the suffering if you think worthy you are at liberty to make public. About a year and a half ago my mother became sick, of what is called here we began greatly to fear for her life. Her symptoms were, bad cough & pain in the side and shortness of breath and other prime story signs of pulmonary consumption. We consulted our best physicians, but to no purpose, he gave her little or no relief and finally pronounced her case incurable consumption. She went just to become weaker and the symptoms more confirmed.

About this time at the suggestion of a friend, we employed (very Doctor Fuller. Having procured a bottle from your agent (S. H. Dyer of Eastport) she commenced taking it. At first it seemed only to mitigate the severity of the symptoms but in a short time her health began perceptibly to improve. It cured her cough relieved her night sweats, and gave it imparted the color of the whole system—After having continued the use most of the time for nearly a year she can be herself cured. She is now able to go about the house and superintend affairs as usual. Under God we believe that to Dows Elixir alone, she owes the preservation of her life and the restoration of former strength and energy. We have also used it in our family in other cases for which it is recommended in the pamphlets, with universal success.

Yours truly,
(Signed) SWAIN P NORDSTROM

The above is only one of a thousand similar letters which we are constantly receiving, from all parts of the country, almost daily

DOW'S ELIXIR is unquestionably the best article known for the cure of COUGHS, COLDS and CONSUMPTION. It is more certain to give relief in all cases of ASTHMA—often a perfect cure—than any thing before offered to the public.

In cases of WHOOPING COUGH it needs only to be tried to give it preference over all other remedies. It immediately breaks up the cough, and renders a more plaything what is otherwise a scourge and terror. For the CROUP it is a positive cure. We speak with confidence, for it has never failed, and we believe never will, when used according to directions.

Pamphlets, giving a full description, to be had of agents in almost every town and village in the country, and of the following, who are prepared to sell at wholesale or retail

Whig and Courier.

John S. Sayward,—Editor.

THURSDAY, APRIL 20, 1848.

☞ We ask the attention of our readers, and the Whigs of Maine, to the articles now in the course of publication, by our able and eloquent correspondent "Union." There is a calmness and a cogency in what he says upon the subject of the Presidency, which should be deeply considered, and fully heeded, and produce their legitimate results in action. Every Whig, who is such for the good of his country, must be more anxious for the success of the Whig measures than for the success of his favorite man, otherwise, if each one cannot secure the nomination of his individual preference—a thing quite impossible—he will take no part in the struggle, except to throw cold water upon the ardor of his Whig friends and thus to cheer his political enemies.

Our great desire is in the coming Presidential election, for the Whigs to succeed in overthrowing the dynasty of Locofocoism, which in the accomplishment of its selfish or its ambitious purposes, disregards the solemn mandates of our written constitution—the ark of our political liberties—and which in its course, if not checked will trample down every barrier reared with so much caution by the political fathers, against executive power and absorb all the powers of the government, and the substance of the people in the President, and be sustained by the hungry and the heartless by means of patronage. The overthrow of this dynasty, and the establishment of a Whig administration will require the earnest sober work of every Whig in the land. They should prepare themselves for the work, by divesting their minds of all aversions for any of the Whig candidates, and by being ready as Whigs to give their cordial and whole hearted support to the Whig which the National Convention of all nominate. Who that nominee should be is ably argued by our correspondent referred to and to whose remarks we again invite attention.

Mr. Farrar's Lecture on the Cold Water Cure

We attended Mr Farrar's lecture on Thursday evening, and are very nearly lost the time. We are sorry to say this, because we resolved to this appropriation of the time, for the purpose of getting at some practical facts in the matter, for home use. But alas, the lecturer had himself and not his subject, in his mind's eye. He thought more of being an orator, than a teacher or a doctor. Had he quietly gone straight forward and told his hearers what he knew of the water cure, how to apply the water in worn cases—what general rules to observe, and thus with much of the *how* somewhat opened with the why of the matter, he would have gratified all and accomplished some good. He had a Bangor audience—one disposed to think and to prize facts and principles higher than all human authority. Verily a fact to a Bangor man and he will thank you while he cares nothing for the opinion of any man, however great.

Mr F by being true to his subject might have made a capital hit, he has the stuff in him, but by forsaking the subject and substance for show and sound, he made a failure.

A Compliment to the Lumbermen of Maine.

The Concord, N H Statesman pays the following high compliment to the Maine lumbermen. Nothing, for a long number of years caused more surprise in some portions of New Hampshire, than the skillful operations of Messrs Fiske & Norcross of this city, on the lumber domain in that State, and the amount of work which their picked men from the Penobscot lumbermen, accomplished. N G Norcross Esq obtained among the people the title of "Lumber King," and no one better deserves the title although no one cards less for titles or any of the other incidents or accidents, of modern civilization than this same Norcross. He likes to see the heart of a thing, and the soul of a matter and the true spirit of manhood leaving the externals as of little worth. But we must let the States man speak.—

THE FISKE & NORCROSS LUMBERMEN AND RIVERMEN.—A year ago people living upon the banks of Merrimack river had opportunity to see and in many instances gain some acquaintance with, lumbermen in the employ of Messrs Fiske & Norcross, who when the ice had left the river, were engaged in driving, from the forest, some twenty miles above Plymouth, to Lowell, the millions of logs cut by them the preceding winter. These lumbermen were often seen in very considerable numbers—sometimes thirty or forty being a Concord at a time. Their healthy and respectable appearance, great apparent bodily strength, gentlemanly and civil manners, and correct deportment in the streets were the subject of frequent remark. A few days ago quite a number of the same men were in town, on a spree on their way from the scene of their operations, dressed, looking and behaving with the same strict propriety as those seen here last year. We learn that this firm of Fiske & Norcross went from Maine where they had been engaged, and drove the ice for the same men in lumbering and driving logs to market. A gentleman who took dinner in a Log Camp in Waterville and to which were some thirty or forty of the men, says he heard amongst the whole no obscene or profane words but on the other hand the utmost propriety of conduct was observed on the part of all.

I will who know what has been the character of the many men engaged in lumbering operations, the fact here stated will be an agreeable one, and which confers honor upon the lumbering firm above named, and the stalwart men in their employ.

Magnetic Telegraph.

The amount of capital assigned to Hanger to take in order to extend the Telegraph from Portland to this city has been taken here, and Mr Eddy the agent of the company, will soon leave the city for the purpose of visiting the towns where an item may be required and obtaining subscriptions for the Stock. There can be but little doubt that Bate, Gardiner and Augusta will take up their portion of the Stock.—Should this prove true there will be rejoicing and communications passed to this city in the month of August next.

The question of continuing the wire East will be delayed for a few weeks but we incline to the opinion that it will go through to meet the Eastern line.

☞ Messrs Henry Pettes & Co announce in our advertising columns, that they will immediately close their dry goods trade, and sell their stock at reduced prices. Prior to this step in consequence of the great increase of their Carpet business, it being now so extended as to require all their attention.

Some plain Thoughts in relation to the Whig Candidate for President.

No II.

There is another topic, which I feel is an unpleasant one, but yet it cannot be washed out of sight. Mr Clay has been defeated three times, when a candidate for the Presidency. He has the prestige of defeat about him. It is sad and humiliating, I admit, to us as citizens when we remember this. He ought to have been elected by the American people unanimously and triumphantly. It is no disgrace to him that he was not. He stands proudly pre eminent, as a man and a statesman. He has beyond any other public man, a band of devoted and firmly attached friends in every section of the Union—I know and feel that it is hard to give him up as a candidate. And when we do yield to what we deem necessity—we feel that we do not love Cæsar less—but Rome more. At the last election the Whig party made a united, vigorous and enthusiastic effort to elect him, against a candidate of no weight,—and with the confidence inspired by a full belief that he would be elected.

We failed. And we then felt that it was the last time we should have him for our standard bearer. We regret that he loses,—and we hope he will see many and happy days.

But it is not to be disguised that the unanimity which marked his last nomination does not now exist—and that, not because the Whigs have any less attachment to the man or his principles—but because some of them, at least, think that his chance for an election is not equal to the chance of his defeat and that there is a man with whom, if they unite upon him, they can confidently count on success. And there are many who feel that justice to Mr Clay, and a due regard to his feelings and his position, and his prospects, require that they should not bring him from his honorable retirement and his quiet home, to be again the mark for malignity and calumny—to be again assailed and vilified—and after all *defeated*. They feel that nothing less than such a call from all parties and all men as renders his election *certain*, can justify his friends in again placing him in the arena. They have once and again felt the bitterness of disappointed hopes, and they cannot bear to run the chance of again being subjected to the sad mortification of seeing their honored friend defeated in his old age once more, by some demagogue, or man of straw the chance offspring of a Baltimore Convention.

But again—some say, "We will give up Mr Clay—but we fall back upon Judge McLane, or Mr Corwin, or some other Northern man, who was a decided friend of northern rights and in favor of prohibiting slavery in new territory." I admit that most if not all of the individuals who compose the Whig party at the North are strong in their convictions that such a restriction should be imposed. But I have never understood that the Whig party as a national party, have put this as an article of the *Whig* creed. The Whig party—as well as the Democratic party, is a *national* party, as every party must be, that can expect ever to come to the administration of affairs. Questions that are peculiarly local or sectional in their nature must stand or fall, not as articles of faith of either of the great leading parties, but upon other considerations. A Whig member of Congress, for instance from the North may be a warm and zealous advocate of the Wilmot Proviso,—and a Whig member from the South may oppose it with equal zeal, and yet both be members of the Whig party. I would not underrate the importance of this or similar questions—or doubt the right or expediency of asserting and defending our views.

On the contrary I would have every man according to his conscience speak, and act. But I would say, in all since rity, that I believe, that sectional and local parties are of all others the most dangerous to our republic. And I am quite sure, that the moment the Whig party, *as such*, makes it part of its creed, issues on questions which necessarily separate the North from the South, that moment that party is either powerless,—and worse still, our Union is in peril. But I may be asked, how would you act? I reply, in our local elections,—and particularly in our selection of members of Congress,—I would see that I had for a candidate, not merely a Whig of the National party—but also one who was sound on other matters that I deemed important.

The feelings, wishes and views of all sections on all subjects would thus be represented. I would not submit to have the Whigs of the South engraft on this Whig creed any thing that savored of the defence of slavery. And I would insist upon the Whigs of the South accepting a contrary article from us. I would at all times go for it all my library of discussion.

The election of Pres dent is a national matter. In selecting a candidate and in voting for him we act as a national party. The moment we at the North say we will not vote, under any circumstances, for a Southern man—*or vice versa* when this is said from the South we become, not Whigs, but Northern or Southern partizans—And I ask in all soberness, how long can our Union continue after we have ceased to have *national* parties? Let no man then say in his haste—I will never vote for a Southern man or a Northern man for a President. I protest against the doctrine that the election of a President must necessarily settle the whole policy of the government. On this topic I shall remark hereafter. But to come to the practical point. You must open a candidate who is pledged in favor of the Wilmot Proviso. You yield up Mr Clay as he has never given his views on this matter. You nominate such a man and what is the result? The Whigs of the Southern States will say, "You have engrafted on the Whig creed a new issue and a new article. You mean of course both only to the free States for the support. The National Whig party is dissolved. You come then to the free States—you look for aid from the Abolitionists of course as you have taken Dunbold ground. *But you will look in vain.* We boast the personal hatred which they have exhibited towards Mr Clay, yet with the same pertinacious dog in the manger disposition, which has influenced them heretofore they will say,—"This is mere outside washing of the platter." "Your Wilmot Proviso is mere *shadow for bones.*" We tell you plainly,—"we care for nothing that does not come up fully to our 40 or 50 articles more or less," and that we would spend on the sixth part of a hair." We oppose Gallatin and Polk up at the polls, and do gamble to splinters, for any such man as you propose. We oppose party, and we what have,—say—we now have our candidates for President and Vice President, and we shall not yield an inch. You turn to the Democracy of the free states—and ask for the "Proviso Democrats." They will tell you to read Hannibal Hamlin's resolutions at the Corcoth Convention, in which he says that the Proviso is no part of the Democratic creed. Not a man comes to your assistance from that field—You call for an amalgamation of all the friends of freedom, and you will be pointed to New Hampshire where it has been attempted, and where the Democracy which for a time showed signs of rebellion has gone back to its former position of subservi ncy. No man can be so blind as not to see that however men of that party may talk, they will not leave their party or its candidates, whoever they may be, to vote for the Whig candidate, who is so nominated on account of his pledges on this question. He must rely solely on the Whigs in the free States and of course be defeated.

Oregon Railroad.

A Washington letter writer states that the select committee appointed by the House of Representatives, will report unanimously in favor of the railroad project of Mr Whitney, and in favor of granting him whatever portion of the public domain may be necessary for the completion of the enterprise. The committee have reduced the proposed bill of lands, from 16 cents per acre to 10,—to be paid by Mr Whitney after the completion of the road.

To Bermuda and the West Indies.

A branch of the West Ind a Steam Navigation Company is about to connect New York with the Bermudas—the "Summer Isles" of the old English navigators. The following is the proposed arrangement as we find it in the Nassau (N P) Gazette —

The route is to commence on the 7th of May next between New York and Bermuda, and from the latter to St Thomas, returning to New York via Bermuda, so as to arrive at the former city on the 11th and to leave again on the 12th, so as to be back on the 18th of every month at Bermuda.

The extension of the steam route to New York will no doubt greatly facilitate intercourse, and be convenient to passengers who may be desirous of visiting the United States, via Bermuda leaving it in place on the 30th of each month, they will arrive at Bermuda on the 4th of the following and leave Bermuda again on the 7th and arrive at New York on the 11th.

The table of a new Route has also been received, to be substituted in place of one of previous date. This table, which I see in the arrangement between New York and Bermuda, states—

"That the steamers are to leave Bermuda on the 7th of every month at 6 P M, arrive at New York on the 11th at 6 P M, leave again the 12th, be back to Bermuda on the 18th, and leave the same day for St Thomas."

How to Procure Early Vegetables without a Hot House.

Take boards three-eighths of an inch thick saw them off three and a half inches long, make them into boxes four inches square with both ends open, fasten them together by wrapping them with a cotton thread. Take a plank three feet long, and one inch wide. Set the box on it, and fill them with such soil as suits your fancy to use, and plant your seeds in them. The plank will hold twenty-seven boxes; put them in the house, and keep them as warm as the night and as cold weather, in warm days set them in the sun. When the season is advanced so that there is no danger of frost, take the boxes where you want the plants to grow, dig holes in the ground, and put the boxes in, surround them with and then cut the cotton thread, and take out the boxes piece by piece, and press the surrounding soil to the contents, the plants will still remain in the soil in which they were first planted, and grow up rapidly, by which means you may furnish your table with vegetables about a month earlier than in the usual manner of planting. The boxes can be had by for and they planting, they will last for many years.—*Southern Cultivator.*

The Two Sexes.

The following true and interesting paragraphs are extracted from an article by Mrs. Sigourney, whose mind is the dwelling of light and beauty.

Man might be initiated into the varieties and mysteries of needle work, taught to have patience with the feebleness and waywardness of infancy, and to deal with noiseless step about the chamber of the sick, and woman might be instructed to contend for the palms of science; brought fields of slaughter to a throne? Yet feelings of the soul would attend it as violence to nature, this abuse of physical and intellectual energy, while the beauty of social order would be defaced, and the fountains of earthly felicity broken up.

We arrive, therefore, at this conclusion. The sexes are intended for different spheres and constructed in conformity to their respective destinations, by him who bids the oak brave the fury of the tempest, and the Alpine flower lean its fragility on the bosom of the eternal snows. But *disparity does not necessarily imply inferiority*. The high places of the earth, with their pomp and glory, are indeed accessible only to the march of ambition, or the grasp of power, yet those who pass with faithful and unapplauded zeal, through their humble round of duty, are not unnoticed by the Great Taskmaster's eye, and their endowments though accounted of small among men, may prove durable riches in the kingdom of Heaven.

"Nobody but a Printer Anyhow"

Such was the sneering expression of a person reading out a thousand votes from the list of our Senators at Washington to the profession we follow in pride. "Nobody but a Printer, indeed!" It makes our free blood the ranquish through our veins by a few such expressions from the lips of those turned on republicans as I. And has labor become disgraceful? And has the name of *Printer* become a reproach in the land? We can not believe it. While we gain an honorable livelihood by toil, we publish on. Let those who boast the latter, look back to their grandfathers, and they will see nobility after the image of God's own hand—men who stood and sung among the waving corn—men who were their human nature like a brook. "Nobody but a Printer anyhow!" Why was William Cullen Bryant, one of the fathers of Literature? "Nobody but a Printer, any how!" Who was Earl Stanhope? "Nobody but a Printer!" Who was Samuel Woodworth, the Poet? "Nobody but a Printer!"

Who was Governor Armstrong, of Massachusetts? "Nobody but a Printer!" George P Morris! James Barker! Horace Greely! Robert Bears, and Benjamin Clarke, Dix, and Niles, are they? "Nothing but Printers, anyhow!" Who the mistaken souls of our land, who would blow honestly with all the plain and noble printers by the Creator, and by whose aid he has set upon however, they will find the [illegible] moral labor. We have done [illegible]

[illegible] dog's tail [illegible]

"Because it's farthest from the fire."

BY THE LAST MAIL.

Further from Mexico.

By the arrival of the steamship Ohio, at New Orleans, from Vera Cruz the 31st ult, and Tampico the 2nd inst, the N O papers have some particulars which were not furnished by the arrival of the Mississippi at this port.

The agent of Santa Anna is reported to have chartered a brig, which, at the last accounts was lying off Antonia twelve miles north of Vera Cruz, where Santa Anna proposed to embark for Jamaica.

A train from the city of Mexico arrived at Vera Cruz on the 30th, under the command of Captain White. The troops consisted of the Louisiana foot, with a squadron of cavalry, under Captain Beauncon, and a company under Captain Reed. The train met Major Graham at Plan del Rio.

Congress were expected to assemble before the end of March. On the 21st and 22d ult seven Senators left the Capital for Queretaro, in order to take their seats.

Purser R H Price was a passenger in the Ohio bearing despatches from the Pacific Squadron to Government.

Commodore R. Reed and Purser Christian had joined the squadron. They were wrecked on their passage from San Francisco to Mazatlan, in the brig Commodore Stocton, when near Magdalena. The brig was a total wreck, but the passengers and crew were fortunately saved by the providential appearance of four whale boats.

There had been no decision in relation to Gen. Fallow's case before the Court of Inquiry.

Riot in Providence.

There was something of a riot in Providence, on Saturday evening, in consequence of the foreign population of that city interfering with the proceedings of a Native American meeting.—The speaker was pulled from his stand and the meeting broken up. Several of the rioters, however ended the night in the Watch House.

CONGRESS.

WASHINGTON, April 15

There has been no session of the Senate to day, that body having yesterday adjourned over to Monday next.

In the House the first thing done was a personal explanation between Mr Palfrey of Mass and Mr Johnson of Tenn, respecting what was said in debate, the other day, about a "charming colored boy."

Mr Palfrey desired to know if the gentleman from Tenn intended to convey an insult to the members of his (Mr Palfrey's) family, by the interrogatory which he propounded on that occasion?

Mr Johnson replied that such was by no means his intention. His object was to show that the theory and practice of the gentleman from Mass did not correspond upon the subject referred to.

Mr Collamer, from the Committee on Public Lands, reported a bill for the benefit of soldiers with land bounty scrip, who may wish to locate on lands in the Iowa reservation, which was read three times and passed.

A bill for paying Lt Gibbs for certain surveys was taken up, and passed.

On motion, the House now resolved itself into a Committee of the whole, Mr Morse of La. in the chair, and took up the bills on the private calendar.

After spending some time in the consideration of the same the House adjourned.

DYSPEPSIA.—This distressing complaint is a weakness of the digestive organs caused by impurity of the blood. The gastric juice, a fluid peculiar to the stomach, when secreted from bad blood is deficient in those solvent properties which are of such importance to digestion—Consequently the food, instead of being dissolved often becomes spoiled or putrified in the stomach hence bad breath, sour belchings, nervousness, pains in the stomach, colic, dysentery, and other dreadful complaints.

Wright's Indian Vegetable Pills are a certain cure for Dyspepsia, because they cleanse the stomach and bowels from all bilious humors, and purify the blood. Four or five of said Pills taken at night on going to bed, will in all cases give relief and if continued for a short time will make a perfect cure of Dyspepsia.

BEWARE OF COUNTERFEITS AND IMITATIONS! *Remember that the original and only genuine Indian Vegetable Pills bears the written signature of William Wright on the top label of each box.*

MEDICINAL USES OF THE WILD CHERRY.

[illegible] Cherry has been known to possess very important medicinal virtues, but by none has this fact been more fully established than by the late [illegible] Cherry Bark and other ingredients, he used it in spring and summer as well as winter. Every mother knows the [illegible] making a compound syrup of wild cherry bark and other ingredients, he used it in spring as an emetic to [illegible] impurities of the blood changing the season. It is found by experience that the wild cherry possesses even far more important qualities than was [illegible] no matter how long standing. Coughs, Liver Complaint, etc., it is proved to be the best medicine known to man. Dr Wistar's Balsam of Wild Cherry is the original extract combined with a similar extract of tar, which enhances its value. Its success in curing [illegible] any disease, and in every stage after the [illegible] claims could do not succeed. Feel the [illegible] led them to confess that Wistar's Balsam of Wild Cherry possesses a [illegible] heretofore unknown and unequaled [illegible]

None genuine, unless signed I BUTTS on the wrapper.

Rheumatism of 26 years standing cured by Crump & Pain Killer.—For twenty years I have been seriously afflicted with Rheumatism in my feet caused by extreme exposure to cold—have expended during that time more than two hundred dollars for various remedies, without any benefit or relief. Last January I purchased a bottle of Curtis & Perkins' Cramp and Pain Killer which on applying gave me immediate relief. The pain is removed and I can perfectly well walk. Any person that will take the trouble to call on me at my store will be satisfied that an astonishing cure has been effected as I am advanced in years.

STAVE DRESSER.

THE Subscribers have in operation at Parsons & Barbour's Planing Mill near the Portland Railway Jedson's Stave Dresser It is believed this Machine involves the only principle that can be rendered available and with a small expense it will turn a perfect number 1 stave with a rapidity corresponding with those days of steam locomotion It will dress three thousand Hhd staves per day and more if you wish and as many barrel staves as a man can handle

It requires two jointers to compete with the dresser requiring only three men to attend the three machines, all is done in a hand some manner the joints are perfect so much so that coopers in New Bedford have purchased it for the purpose of manufacturing oil casks

The tending the machines is much less laborious than dressing staves in the usual way It will be seen from the above statement that hooks can be manufactured for half the expense incurred by hand

They are prepared to sell rights for the State of Maine, also for the State of New Hampshire

DR. UPHAM'S Vegetable Internal Remedy FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles, Inflamation of the Liver and Spleen Inflamation, Soreness and Ulceration of the Stomach Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflamation of the Spine, and for the relief of Married Ladies

THE VEGETABLE PILE CATUARY, Invented by Dr. A Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this! it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding at blind, internal or external and prevent any other coming in their place. There is no mistake about it It is a positive cure—*speedy and permanent.* It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains twelve doses, and is a sure purgative, It is very mild in its operation, and may be taken in cases of the most acute inflamation without danger—All external applications are in the highest degree disagreeable, inconvenient and offensive, but from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES.

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others for the cure of all inflamatory character, with a due admixture of blood in any particular part or organ in inflamation and congestion of the brain and spine, Inflamation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, in inflammatory and in mercurial Rheumatism, in the *Sore* Mercurial sore throat &c &c

IMPURITIES OF THE BLOOD

For all impurities of the blood, arising from the imprudent use of Mercury, or other causes, for all diseases of the Skin, all Scrofulous AFFECTIONS, in all cases where the blood is powerfully deteriorated in the kidneys, lungs, and all nervous diseases, DR UPHAM'S ELECTUARY is entire invincible

TO MARRIED LADIES

Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflamation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c.—Dr Upham's Electuary is safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will generally remove all Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION, and cause many items, safe delivery, and a sound constitution in the offspring

CURE FOR LIFE GUARANTIED.

The Electuary contains NO MINERAL Medicine and is perfectly safe in all cases, and will not cause irritating purgatives. No fear of taking cold while under its influence, no change in diet necessary. It is taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving valuable information respecting this Medicine, may be had of Agents, gratis.

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me, March 10, 1847.

DR. UPHAM—By desire—I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced in the use of your really valuable Pile Electuary I have been a perfect martyr to the bleeding Piles for 18 years past, so much so that I became reduced to almost a skeleton, unfit for any kind of occupation, and general derangement of the digestive organs My pain also became affected and in fact I was a miserable myself I was obliged to give up my business. I used all kinds of medicine, but the best relief the Doctors in Boston and this place could afford, spent much money—and twice submitted to painful operations. I had become perfectly tired of life, and at this suggestion of my friends I was induced to try a box of your medicine The first I found to relieve me slightly, still I persevered, and purchased a second, and I assure you, when I got half through, I found myself getting well still I kept on, and now I am a well man My dear Sir, language cannot express the heartfelt thanks that I an once more restored to health, and now in a condition to support my large family, dependent on me.

You can use this letter as you please.

Yours respectfully, SAMUEL CHARLTON.

DISEASES OF THE Throat and Lungs.

COUGHS and Colds the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy and many other dangerous diseases, are too often neglected until the foundation of the Incurable Complaint is laid deep in the system A Physician is then called in, who of course is a Pulmonary, but declares the disease incurable, and the Patient is confirmed in his opinion, alas! But why does he die? Simply because he does not resort to the proper remedy, but treats the mere symptoms of a Pectinisease rather than the infinite cause of experience and the most authentic testimony. On this page is the only true one, the discovery of

DR. VONDERSMITH'S INDIAN COUGH BALM and Lung Balsam,

have been thoroughly established, Let those who doubt, read the following testimonials which are merely a few of hundreds of the same nature.

CONSUMPTION

AND AFFECTION OF THE LIVER, CURED,

Of Twenty Years Standing!

City of New York July 23rd, 1847.

This is to Certify that I, Nelson Larrabee, of Jersey City, have been subject to a dry hacking cough and a pain in the side and chest, standing for twenty years and general weakness of the system for a period of twenty years, and pronounced INCURABLY CONSUMPTIVE, went to the advice by regular physicians on the many advertised remedies I have taken have been of any permanent benefit, and I was finally induced hopelessly to the progress of my disease, when I was persuaded to try Dr E W. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the use of which, off my symptoms have been removed and I have been wonderfully restored to the blessings of health, and the presence of a prolonged existence.

In gratitude for which, and in the hope of benefiting others, I solemnly certify to the facts in this certificate

NELSON LARRABEE, Jersey City.

Sworn to before me, this first day of July, 1847

INFLAMMATION OF THE LUNGS.

New York, June 19, 1847

DR VONDERSMITH—I beg to inform you that I was subject to a cough, pain in the chest, difficulty of breathing &c., for the last sixteen years. About four months since I took a severe cold which settled on my lungs I was unable to attend to my business during the day I had bad nightsweats that I thought I could not possibly survive an hour I could get relief. The excessive night sweats had reduced me to the body to a skeleton. I appeared rather in the finality stages, so that, should I pass the next autumn of my life, it would be a blessing. Indeed this I was recommended to try Dr VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I commenced using the day I had read about it, and from the very first dose I found relief. I continued with the medicine as directed to its directions, and the result has been that I am now enjoying the best of health, a blessing that I have not enjoyed for years, until too present time. Indeed I believe had I not made use of Dr. V's invaluable medicine that I would be mouldering in the silent grave Therefore I feel it my duty to do something for the benefit of my fellow creatures, and in justice to the above facts, as stated above it to all the afflicted who may call upon you to address to me, and I shall be pleased at any time to converse with the afflicted on the many evil upon me.

Your grateful patient and friend

CONSUMPTION.

STATEN ISLAND, June 16th, 1847.

DEAR SIR—I take great pleasure in giving you my certificate, for December I was attacked with a severe cough, which in my left side, loss of appetite, and continual raising of white and yellow matter. About days I retired a half pint of mucous, at night with blood. I have been under the treatment of a dozen physicians, one of Philadelphia, to use a breathing cup, but all to no purpose, I finally made up my mind that my days were numbered, and that I was a miserable object to my friends. I was induced to try a box of your Consumption Balsam, which I found to relieve me slightly, still I persevered, and purchased a second, and I assure you, when I got half through, I found myself getting well still I kept on, and now I am a well man My dear Sir, language cannot express the heartfelt thanks that I an once more restored to health, and now in a condition to support my large family, dependent on me.

You can use this letter as you please.

DISEASES OF THE Throat and Lungs.

COUGHS and Colds the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy and many other dangerous diseases, are too often neglected until the foundation of the Incurable Complaint is laid deep in the system A Physician is then called in, who of course is a Pulmonary, but declares the disease incurable, and the Patient is confirmed in his opinion, alas! But why does he die? Simply because he does not resort to the proper remedy, but treats the mere symptoms of a Pectinisease rather than the infinite cause of experience and the most authentic testimony. On this page is the only true one, the discovery of

DR. VONDERSMITH'S INDIAN COUGH BALM and Lung Balsam,

have been thoroughly established, Let those who doubt, read the following testimonials which are merely a few of hundreds of the same nature.
